THE SUDDEN INFANT DEATH SYNDROME: CARDIAC AND RESPIRATORY MECHANISMS AND INTERVENTIONS[a]

Editors and Conference Organizers
PETER J. SCHWARTZ, DAVID P. SOUTHALL, and MARIE VALDES-DAPENA

CONTENTS

Introductory Remarks. *By* PETER J. SCHWARTZ, DAVID P. SOUTHALL, and MARIE VALDES-DAPENA xi

Part I. An Overview of the Problems of SIDS

A Historical Perspective on SIDS Research. *By* EILEEN G. HASSELMEYER and JEHU C. HUNTER 1

Sudden Infant Death Syndrome in Epidemiologic Perspective: Etiologic Implications of Variation with Season of the Year. *By* DONALD R. PETERSON, EUGENE E. SABOTTA, and DANIEL STRICKLAND 6

Risk Factors for SIDS: Results of the National Institute of Child Health and Human Development SIDS Cooperative Epidemiological Study. *By* HOWARD J. HOFFMAN, KARLA DAMUS, LAURA HILLMAN, and EHUD KRONGRAD 13

A Pathologist's Perspective on Possible Mechanisms in SIDS. *By* MARIE VALDES-DAPENA 31

Intrathoracic Petechial Hemorrhages: A Clue to the Mechanism of Death in Sudden Infant Death Syndrome? *By* J. BRUCE BECKWITH 37

The Role of Sleep and Arousal in SIDS. *By* M. B. STERMAN and J. HODGMAN 48

[a]This volume contains papers presented at a conference entitled The Sudden Infant Death Syndrome: Cardio-Respiratory Mechanisms and Interventions, held on May 24–27, 1987, in Como, Italy, and cosponsored by the New York Academy of Sciences; Centro di Fisiologia Clinica e Ipertensione, Centro SIDS, Ospedale Maggiore, Università di Milano; the National Center for the Prevention of Sudden Infant Death Syndrome; and the Division of Maternal and Child Health, Department of Health and Human Services. The conference and this volume are, in part, a product of the "Progetto Finalizzato Medicina Preventiva e Riabilitativa, Sottoprogetto Patologia Perinatale e Sue Sequele" of the Consiglio Nazionale delle Ricerche, Rome, Italy.

The Relationship between Sleep and Sudden Infant Death. *By* JEFFREY B. GOULD, AUSTIN F. S. LEE, and SUZETTE MORELOCK 62

Part II. Identification and Management of At-Risk Infants

Problems in Management of Infants with an Apparent Life-Threatening Event. *By* A. KAHN, E. REBUFFAT, M. SOTTIAUX, and D. BLUM 78

Drug-Addicted Mothers, Their Infants, and SIDS. *By* TOVE S. ROSEN and HELEN L. JOHNSON 89

Prevention of Unexpected Infant Death: A Review of Risk-Related Intervention in Six Centers. *By* R. G. CARPENTER, A. GARDNER, J. HARRIS, M. JUDD, J. LEWRY, C. R. MADDOCK, J. POWELL, and E. M. TAYLOR 96

Evaluation of the Nottingham Birth Scoring System. *By* RICHARD J. MADELEY, DAVID HULL, and J. MARK ELWOOD 106

Methylxanthine Treatment in Infants at Risk for Sudden Infant Death Syndrome. *By* CARL E. HUNT and ROBERT T. BROUILLETTE 119

Part III. Families of SIDS Victims and of Infants at Risk: Providing Support; Assessing the Value of Home Monitoring

Chairman's Remarks. *By* GAVIN C. ARNEIL 127

The Sudden Infant Death Syndrome: Siblings and Their Place in the Family. *By* FREDERICK MANDELL, MARY MCCLAIN, and ROBERT REECE 129

The Origin of Maternal Feelings of Guilt in SIDS: Relationship with the Normal Psychological Reactions of Maternity. *By* LUISELLA ZERBI SCHWARTZ 132

Family and Health-Professional Interactions. *By* SYLVIA LIMERICK 145

The Federal SIDS Support Network in Perspective. *By* JEHU C. HUNTER 155

Home Monitoring for the Sudden Infant Death Syndrome: The Case For. *By* DOROTHY H. KELLY 158

Home Monitoring for the Sudden Infant Death Syndrome: The Case Against. *By* JOAN E. HODGMAN and TOKE HOPPENBROUWERS 164

Part IV. Possible Role of Cardiac Mechanisms in SIDS

Conduction Tissue and SIDS. *By* SIEW YEN HO and ROBERT H. ANDERSON 176

Problems in the Interpretation of Cardiac Pathology in Reference to SIDS. *By* G. THIENE 191

Sympathetic Neural and α-Adrenergic Modulation of Arrhythmias. *By* MICHAEL R. ROSEN, PETER DANILO, JR., RICHARD B. ROBINSON, ANURADHA SHAH, and SUSAN F. STEINBERG 200

Cardiac Innervation, Neonatal Electrocardiography, and SIDS: A Key for a Novel Preventive Strategy? *By* PETER J. SCHWARTZ and ALESSANDRO SEGANTINI 210

The Interaction of Chemoreceptors and Baroreceptors with the Central Nervous System: A Critical Role in Early Life. *By* G. G. HADDAD and D. F. DONNELLY 221

Heart-Rate Variability and SIDS: Examination of Heart-Rate Patterns Using an Expert System Generator. *By* I. A. T. VÄLIMÄKI, T. NIEMINEN, K. J. ANTILA, and D. P. SOUTHALL 228

Sleep and Cardiac Arrhythmias. *By* RICHARD L. VERRIER and DEBRA A. KIRBY 238

Part V. Possible Role of Respiratory Mechanisms in SIDS

Upper Airway Reflex Control. *By* J. G. WIDDICOMBE and M. TATAR 252

Airway Reflexes and the Control of Breathing in Postnatal Life. *By* P. JOHNSON 262

Chemical Control of Breathing in Early Life. *By* DAVID J. HENDERSON-SMART and GARY L. COHEN 276

Lung Surfactant and Sudden Infant Death Syndrome. *By* COLIN MORLEY, CHARLES HILL, and BETTY BROWN 289

The Role of Pulmonary Surfactant in SIDS. *By* R. A. GIBSON and E. J. MCMURCHIE 296

Periodic Breathing. *By* DOROTHY H. KELLY, DAVID W. CARLEY, and DANIEL C. SHANNON 301

Postneonatal Development of Respiratory Oscillations. *By* PETER J. FLEMING, MICHAEL R. LEVINE, ANDREW M. LONG, and JOHN P. CLEAVE 305

Pathophysiology of Sudden Upper Airway Obstruction in Sleeping Infants and Its Relevance for SIDS. *By* B. T. THACH, A. M. DAVIES, and J. S. KOENIG 314

Mechanisms for Abnormal Apnea of Possible Relevance to the Sudden Infant Death Syndrome. *By* DAVID P. SOUTHALL and DAVID G. TALBERT 329

Cardiorespiratory Interactions in Heart-Rate Control. *By* K. M. SPYER and M. P. GILBEY 350

SIDS, Near-Miss SIDS and Cardiac Arrhythmia. *By* CHRISTIAN GUILLEMINAULT 358

Cardiorespiratory Control during Sleep. *By* R. M. HARPER, R. C. FRYSINGER, J. D. MARKS, J. X. ZHANG, and R. B. TRELEASE 368

Physiological Approaches to Respiratory Control Mechanisms in Infants: Assessing the Risk for SIDS. *By* R. HAIDMAYER and T. KENNER 376

Analysis of Long-Term Cardiorespiratory Recordings from Infants Who Subsequently Suffered SIDS. *By* A. J. WILSON, V. STEVENS, C. I. FRANKS, and D. P. SOUTHALL 390

Seizure-Induced Apnea. *By* N. MONOD, P. PEIRANO, P. PLOUIN, B. STERNBERG, and C. BOUILLE 411

Part VI. Summary of Workshop Sessions: Current Knowledge and Future Directions for Research

Cardiac and Respiratory Mechanisms That Might Be Responsible for Sudden Infant Death Syndrome: Ideas for Future Research. *By* P. FROGGATT, J. B. BECKWITH, P. J. SCHWARTZ, M. VALDES-DAPENA, and D. P. SOUTHALL 421

Part VII. Conference on SIDS for Parents, Parents' Organizations, and Other Advocacy Groups

SIDS Family International: Introduction. *By* MARTA BROWN 427

SIDS Family International: Minutes of the Second SIDS International Parents' Meeting, Lake Como, Italy, 27 May 1987. *Recorded By* KAAREN FITZGERALD 430

Poster Papers

Changing Patterns of SIDS in Southeast Scotland. *By* SHEILA BARTHOLOMEW and BARTON MACARTHUR 441

SIDS in Sweden. *By* S. G. NORVENIUS and G. WENNERGREN 443

The Incidence of SIDS in Italy: A Prospective Study. *By* P. RUSINENTI, F. GRANCINI, A. SEGANTINI, V. CARNELLI, D. PORTALEONE, P. CAREDDU, and P. J. SCHWARTZ 444

Conspicuous Modifications of Behavioral Patterns in Infants at Risk for SIDS Because of Pathological Cardiorespiratory Mechanisms. *By* C. EINSPIELER, A. HOLZER, and T. KENNER 446

QT Interval, Total Calcium Blood Levels, and SIDS: A Prospective Study. *By* P. AUSTONI, R. MISSAGLIA, M. V. INNOCENTI, G. B. DANZI, V. CONSOLE, M. MONTEMERLO, A. SEGANTINI, T. VARISCO, and P. J. SCHWARTZ 448

Epidemiologic Comparisons of Sudden Infant Death Syndrome with Infantile Apnea. *By* NORA DAVIS, LEE BOSSUNG SWEENEY, and DONALD R. PETERSON 450

A Screening Program for Identification of Respiratory Risk Factors for SIDS. *By* N. MONOD, P. PLOUIN, B. STERNBERG, P. PEIRANO, N. PAJOT, V. VARILLE, S. LINNETT, B. KASTLER, C. SCAVONE, S. GUIDASCI, and J. LACOMBE 454

Vulnerability and Stabilization of the Cardiorespiratory System in Infants at Risk for SIDS and in the Animal Model. *By* M. E. SCHLAEFKE, T. SCHAEFER, A. BAEUMER, D. SCHAEFER, and H. KRONBERG 457

A New On-Line Ambulatory Monitoring System for Studying Cardiorespiratory Development in Infants at Home. *By* P. JOHNSON, P. SANDS, J. HEAD, F. D. STOTT, and S. HUMPHREYS 459

Pulmonary Neuroendocrine Cells in SIDS: An Immunohistochemical and Quantitative Study. *By* ERNEST CUTZ, WILSON CHAN, and DONALD G. PERRIN 461

Distinctive Pattern of Pulmonary Neuroendocrine Cells in Sudden Infant Death Syndrome. *By* J. E. GILLAN and S. F. CAHALANE 464

Size of the Tongue in Sudden Infant Death Syndrome. *By* JOSEPH R. SIEBERT and JOEL E. HAAS 467

Evaluation of Near-Miss Sudden Infant Death: The Importance of Investigations to Determine Etiology. *By* A. BOCHNER, G. VEEREMAN, and M. VAN CAILLIE-BERTRAND 469

Is Anemia a Cause of Apnea? *By* J. J. SHAH, L. T. BUSH, S. KNOBLAUCH, M. DENSBERGER, and J. KROGMAN 471

Index of Contributors 473

Major financial assistance was received from:

- CIBA-GEIGY
- DIVISION OF MATERNAL AND CHILD HEALTH, DEPARTMENT OF HEALTH AND HUMAN SERVICES (PHS GRANT NO. MCJ-009071-02-0)
- HEALTHDYNE
- KNOLL AG
- KONTRON INSTRUMENTS
- NATIONAL CENTER FOR THE PREVENTION OF SUDDEN INFANT DEATH SYNDROME
- NELLCOR INC.
- PABISCH

Additional financial assistance was received from:

- BURROUGHS WELLCOME CO.
- MARQUETTE INC.
- MEDTRONIC
- MERCK SHARP & DOHME
- WYETH LABORATORIES
